Tx Plan:

Please describe the medical history of your parents, siblings and children. Have there been any occurrences of cancer, diabetes, hypertension, cardiovascular disease, mental illness, etc?

Dr. Danielle Olson has been trained extensively in the chiropractic profession and should not be confused with being a medical physician. The goal in this practice is to enhance the function and integrity of your nervous system, not to diagnose, treat, or cure physical, mental or emotional ailments. We witness "miracles" every day, but it is important for you to understand that if you become concerned about symptoms or medical conditions, we suggest that you seek the help of a symptom and disease care professional.

I, the undersigned, have completely read and understand the above statement and choose to be served at the Office of Dr. Danielle Olson and Dr. Annie Seefeldt.
